

VINOVAP- 71.1% WDG

Fungicide
Water Dispersible Granule

VAPCO

Class:
Benzamide⁽¹⁾
Phosphate⁽²⁾

A systemic fungicide with preventive and curative action used to prevent downy mildew on grapes during its active growth.

COMPOSITION: Each Kg contains:

Fluopicolide ⁽¹⁾	4.44% W/W (A.I)
Fosetyl-Aluminium ⁽²⁾	66.67% W/W (A.I)

PROPERTIES:

VINOVAP-71.1% WDG: A systemic and preventive fungicide that contains two active ingredients, one of which is fluopicolide and Fosetyl-Aluminum. It guarantees very good protection against downy mildew on leaves and new shoots that formed after treatment.

VINOVAP-71.1% WDG: An effective pesticide, as it has a long protection period that extends to 14 days

USES AND APPLICATION RATE :

CROP	DISEASE	APPLICATION RATE	APPLICATION TIME	SAFETY PERIOD
Grapes	Downy mildew	3 kg/ha	It is recommended to use it when visible bunches appear to the late flowering stage	28 days

CAUTION:

- Used only on above mentioned crop and follow the recommended safety period before harvest.
- Do not use in greenhouse used for vine cultivation.
- The best results are obtained with a regular spraying on the whole vegetation cover

COMPATIBILITY:

Incompatible with copper compounds and foliar fertilizers that contain nitrogen and it's preferable to make compatibility test before spraying different types of grapes.

RE ENTRY PERIOD:

24 hours from the last application
