

SAMAROL

SUMMER OIL
EMULSIFIABLE CONCENTRATE

Mineral oil contains high concentration of saturated hydrocarbons to control insects mentioned in table of use.

COMPOSITION: Each liter contains:

MINERAL OIL

96% V/V (A.I)

PROPERTIES:

SAMAROL: Contains high concentration of saturated hydrocarbons and this decreases its toxicity to plants.

SAMAROL: Non phytotoxic if use as recommended.

SAMAROL: Used to control scale insects, aphids, and mites at early stages.

USES AND APPLICATION RATE:

CROPS	PESTS	APPLICATION RATE / 20 L WATER	SAFETY PERIOD
Citrus, Olives, Figs.	Scale insects, aphids, mealybugs and mites.	100 - 200 ml (depend on temperature).	Determined according to the safety period of the pesticide mixed with it.

REMARKS:

- Don't spray at high temperatures.
- Don't apply **SAMAROL** to plants under water stress.
- Mixing should be continual during spray.
- Don't apply sulfur containing compounds to plants treated with **SAMAROL** within one month.

COMPATIBILITY:

Compatible with most pesticides except SULFUR and OXAMYL compounds, compatibility test is recommended before spraying.
