Coumarin  
anticoagulant

**NOFAR-2 is an anticoagulant rodenticide which show exceptional activity against all rodent species, and can be used in all places where rodents can live.**

**COMPOSITION:** Each kg contains:

**BRODIFACOUM**

**0.005% W/W (A.I)**

## USAGE AND DOSAGE:

- Placing the blocks in appropriate places is very important, remember that rodents are intelligent, so selection of suitable place is very important.

| PEST    | USES   |
|---------|--|
| Rodents | Place <b>NOFAR-2</b> blocks beside well-defined runs and around burrows and holes. |

## GENERAL NOTES:

- \* To reduce wastage of bait, do not repeat application in the same week.
- \* All remaining and uneaten bait should be handled with rubber or plastic gloves at the end of application and placed in plastic bags and then burned and disposed of according to the methods followed.
- \* Dead and non-dead rodents are to be dusted with an insecticide and collected in transparent bags and burned or buried.
- \* Areas where bait is added should be placed at locations away from children, and domestic animals, its recommended to use in special boxes due to their toxicity, and they should not be placed in open place inside the house.
- \* Avoid any contact to mouth.
- \* Wash hands, face and exposed skin after application.
- \* Do not place the baits in open places.
- \* Baits should be covered, only mice and rats can access to baits.
- \* Do not place the baits in places easy to reach by children, livestock or pets and others.
